

## 2020-02-05 Privacy Policy – Hogia Orderit

This text applies to the privacy of the phones where the Hogia Orderit application is installed.

### Purpose of the application

The purpose of the application Hogia Orderit ("App") is to send transport orders to the transport planning system and to receive information about status regarding current orders.

The user uses HogiaID (email address), organisation to identify who is logged on to the app to ensure that the user has the right permissions to receive information. HogiaID/email address is saved to the customer information.

### Location features in the app

If the user is authorised (permitted) to use the built-in GPS function of the phone the app will be able to suggest nearby locations in real-time. Location information will not be stored. The user is prompted to give permission for the app to use the mobile device's position for location.

### Data and logging

The login and access to information is individual. The email address used to login is sent to the server in order to monitor incorrect or unauthorized access. The user information (email address) is stored on the server for 90 days. Data is securely transferred to and from Hogia's services. The user's identity is credited via login and only invited users have permission to log in.

### Third Party

Hogia does not sell or transfer data from the application to third parties unless otherwise agreed.

The application is developed by
